1. Fuel store will be cleaned only. This does not involve removing fuel from the store, if fuel is required to be removed to allow work to be undertaken; a maximum of 1t of fuel may be placed in to a dumpy bag externally but Howard Services will not be responsible for disposal.
2. The Dropbox link will be created and access will be given to you the client for at least 30 days before being removed but will be kept on Howard Services internal computer system (for a period of time) for future reference if required.
